THE NOMAD CLUB.

When Miss Helen May Curtis made her bow to the "Nomad Club" and their guests on Saturday afternoon she at once claimed their closest attention to a program full of charm and varying theme. They first applauded her in "A Union," by Junkerman, which piece offered her an opportunity to show the fine shadings of her voice. An artistic rendition of these lines was necessary to convey to her listeners the spirit of nature which the writer possessed. The complete silence of the audience during its rendering and the spontaneous applause that followed marked well their appreciation. This was followed by Austin Dobson's "Sundial," flashing with light. Then came Herbert's "Disappointed Butterfly," that finally got caught, but did not escape catching its hearers. Christini Rossetti's "Royal Princess," in different vein, followed by "Mucklemouth Meg," which last number one need not be a Browning lover to enjoy. These and other selections led the way to the masterpiece of the afternoon, "The Wooling Scene," from Henry V., in which she enjoyed full scope for her real dramatic talent. The concluding number on the program was "A Matinee Hat," which though "it wouldn't come off," in this instance delighted an entire audience. In fact it is doubtful if one has ever given as much pleasure to as many women—and men, too—as did this one. Like the King's pie, it could boast of twenty-seven blackbirds; therefore it was large enough to go round and yet interfered with nobody's pleasure.

This open session was held at the home of Mr. and Mrs. W. D. Cochran on East Second street. At the close of the recital light refreshments were served from a buffet table, after which the guests lingered during the remainder of the afternoon in the enjoyment of each other's society.

After this meeting the Nomads disbanded, expecting to resume their wanderings in the fall.

MURPHY, the Jeweler.

KICKERS' CORNER

If any one at any time for any reason has any cause to "kick" in any way at anything of any kind, here's the place to say his say. The door is open—walk right in and help yourself, free gratis and for nothing—but don't make your "kicks" too long—it's the short, quick fellows that count—and cut.

The name of the kicker must accompany the kick, or it'll be kicked into the waste-basket.

SCHOOL LAWS.

Our school laws are not conducted right so our people—say. Every school neighborhood has the right to vote who their teacher shall be. We have had people to ride a long distance to this city and came expressly to see us—to see if—something could be done in regard to the school laws & we receive letters Weekly in regard to the matter, then why not justify the people, their is so many complaints brought in against teachers—against superintendents & against state superintendents if the people were justified their would be no complaints brought in and the children and the teachers Would improve rapidly.

Respectfully

LAWYERS OF MAYSVILLE

Please Publish

Remarks.—The foregoing is given verbatim—or at least as nearly so as it can be rendered with cold type, black ink and white paper.

One thing is evident—the present School Laws cannot possibly be "conducted" in a worse manner than were those under which this robust "Kicker" learned his learning.

And then, while this "Lawyer" has such a violent stomach-ache over the "School Laws," he might read up a little on the "Postal Laws," which impose a heavy penalty for smuggling through Uncle Sam's mails letters without the prepayment of proper postage.

\$100—Reward—\$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for full testimonials. Address:

RIVER NEWS.

The Virginia is due down tonight from Pittsburgh.

The Avalon from Pomeroy will be down tonight.

The Lizzie Bay from Pomeroy passes up tonight.

The Sun, lately in the Maysville-Cincinnati trade, is now running as an excursion boat on the Kentucky river.

The placing in position of the wickets at Davis Island Dam has caused a rapid decline in the river below that place.

George M. Waters, writing from Cincinnati to The Waterways Journal about what he sees at the river there, says:

"The Coney Island Queen is just below me, loading live freight, which loads and unloads itself and pays for what it drinks. The Queen is handsome—the name fits her. She surely is the Queen of the Ohio river. She is loading now 2,000 packages of live freight for New Richmond. Some of these packages seem to be very valuable, judging from the care taken of them by consorts. They are done up in pink shirtwaists, new Easter hats, elegant empress skirts, from under which is seen dainty little patent leathers, popping in and out as they toboggan down off the 'kopple' and 'trek' up the gangplank, to be carefully taken care of by the Queen's own crew, all for 25 cents. This Queen reverses the rule, 'Six days shalt thou labor, and rest on the seventh day.' She does it thus, the seventh day shalt thou labor and earn enough to lie by and rest the six days, which is all right. Wouldn't mind doing that myself.

"The Sunshine is loading freight all over herself—down in, in between, around the Texas, fo' castle piled up, rousting stowing close in every nook.

"The Henry M. Stanley, the explorer, (of river bottoms) just out of her soft, wet bed, lies alongside of another 'dead bird,' the Bonanza, which lies tail up stream, one side broken down, her nose against the nose of the Relief, being fitted up and about to be born again."

Question Answered.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for Indigestion or Biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart Failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. For sale by J. C. Peacor.
